

TECHNICAL DATA SHEET

PUROCIDE BL

Product Name : **PUROCIDE BL**
Appearance : Yellow green Liquid
Concentration : 100%
pH of 10% solution : 11.00 to 13.00

PROPERTIES :

PUROCIDE BL is biodegradable bactericide, free from pentachlorophenol and similar toxic products, specially formulated to prevent any bacterial development during the beam house process, on any kind of raw material like green, salted, dry.

PUROCIDE BL can be used for curing of raw material to control the growth of halophilic bacteria and any other types of bacteria as well. In soaking, **PUROCIDE BL** is compatible with all enzymes soaking system and also conventional system and allows any suitable soaking duration. In liming, **PUROCIDE BL** avoids the scuff grain due to bacterial damage. It can also be used for the preservation of finishing products based on casein.

SHELF LIFE:

6 months when stored free from moisture in a dry, cool place in closed containers at ambient temperature if kept between 0°C and 60°C. Bags should be tightly resealed each time material is taken from them and their contents should be used up as soon as possible after they have been opened.

TECHNICAL DATA SHEET

PUROCIDE BL

APPLICATIONS :

Soaking of fresh salted hides and skins

PUROCIDE BL -0.1-0.2% on fresh salted weight or 0.05 to 0.1gram per litre of water (ratio1:2)

Soaking of dry hides and skins

PUROCIDE BL -0.2-0.4% on dry weight or 0.03 to 0.6gram per litre of water (ratio1:6)
